

Quattro PLUS CRE

Heavy Duty, Cogged Raw Edge EPDM Wedge Belt
Relative Power \uparrow 150

The Fenner® Quattro PLUS CRE is a step forward in belt technology. It's high performance unique polyester tension member and EPDM contact section allows it to transmit 26% more power than traditional CRE range and offers up to 15% longer service life.

Benefits

- > Synthetic rubber EPDM heavy duty wedge belt
- > Embedding compound for stable power transfer
- > Enhanced tooth profile improves belt flexibility, reducing bending resistance and increasing efficiency and life
- > Unique construction of the polyester tension member improves accuracy and stability of belt length
- > Reduced belt weight lowers inertia and reduces vibration allowing smoother running
- > Lower pre-tensioning force allows longer bearing life and extends maintenance periods between re-tensioning
- > Abrasion resistant compound for enhanced durability
- > Extended temperature range -40°C to +130°C
- > PB® (Precision Build) technology, eliminating the need for matching
- > Conditionally oil resistant
- > Fully approved by all international standards
 - > BS 3790 (British Standard)
 - > ISO 4184 (International Standards Organisation)
 - > DIN 7753 (German Institute for Standardization)
 - > Electrically conductive in accordance with ISO 1813
 - > Conforms to American Petroleum Institute specifications

Sections and Size Range

| Profile | QSPZ | QSPA | QSPB | QSPC |
|------------------------------------|------------|------------|-------------|-------------|
| Length Range (L _d (mm)) | 512 - 3550 | 590 - 4000 | 1000 - 6700 | 1900 - 5000 |
